“Editorial: Attitude Representation,” J. L. Junkins and M. D. Shuster, *The Journal of the Astronautical Sciences*, Vol. 41, No. 4, October–December 1993, pp. 437–438.

Editorial for a special issue of the *The Journal of the Astronautical Sciences* on Attitude Representations, with John Junkins and myself as guest editors.

This was essentially the preface of the special issue. The special issue was very well received, became the all-time biggest after-publication bestseller of the JAS, and is now out of print.
