“In My Estimation,” Malcolm D. Shuster, *The Journal of the Astronomical Sciences*, Vol. 54, Nos. 3 and 4, July–December 2006, pp. 273–297.

This is the journal version of my keynote address “Beyond Estimation,” which was presented at my symposium in 2005. With one exception, the topics of the keynote address are either absent or expanded greatly. This occurred because of a desire on the part of the editors of the special issue to protect you, me or the journal from myself.
